

January, 2026

GENERAL CONDITIONS

For the final license, ACTIVATION as described in the manuals, you must send a file automatically generated by application, with different data. One of such data is the ID of the hard drive of your computer. Based on the same a code is generated which enables you to work indefinitely with your application.

Price includes program as it is at the time of purchase. Future improvements or additions will be invoiced separately, if the user is interested in purchasing. Does not include operating system changes or adaptation to new versions of AutoCAD.

The price includes training, consisting of assistance in developing the first example of each client. As such Client means the company and not every one of its designers. That is, we can form a representative from each company, which will always have our support, to train other colleagues.

When installing each application, the user is asked to accept the general conditions of sale.

Payment:

euros payable by bank transfer

The procedure for obtaining a license is as follows:

1. Send your license request to the distributor, including your billing information and the hard drive ID of the computer where the application will be installed.
2. We will send you an invoice for the total cost of your license, with instructions for making the bank transfer.
3. Once payment is confirmed, a Service Pack will be sent to you with your license, containing the latest available version of the application.
